

Message from Vice Chancellor, GNDU, Dr. S.P. Singh

July 4, 2004

Sikh Human Development Foundation (SHDF) is doing an excellent job by extending the much required financial moral and spiritual support to those meritorious students who want to acquire the best professional education, but cannot do so because of severe financial constraints which their families are having. In this age of materialistic pursuits such benevolent acts are definitely a rarity. It is not only a concern which is informed of humaneness and magnanimity but also of the considerations of merit. Most particularly in developing countries like India Higher Education is becoming a mirage for the students belonging to poor families. They are gradually getting on the side-lines of advancing society and getting peripheralised as human beings. Corporatization of the Higher Education makes human values as the first casualty. Yours is a platform, which is striving to become a bedrock against these onslaughts of ill directed modernity. Such platforms need strengthened more and more. Our institution is always on the look out to be of any help and support for this noble cause.

May the God Almighty bestow Its blessings upon you and your organisation so that serviceability may remain a cherished value.

S.P. Singh
